

The Parish Plan, produced by the community, was adopted by the Council in January 2008. The full version is elsewhere on this website but from it the Parish Council produced its own summary version which was distributed to households in April 2008 and launched at the Annual Parish Meeting on 30th April 2008.

These aims and objectives of the Parish Council remain unchanged, so please read on if you are interested in Parish Councils in local life.
